

2024-25 OMS4 Financial Aid Budget Revision Request for Rotation Expenses
(Refer to the [PNWU Clinical Rotation Resources](#) for rotation requirements and scheduling)

The table below is to help you determine if your expenses for clinical rotations travel exceed the PNWU estimate (\$4380). All OMS4 students already have an extra \$4380 built into their cost of attendance for clinical rotations travel, so we can only consider costs exceeding that estimate. **Do not include expenses that have been covered by PNWU**, such as the housing allowance provided by PNWU for core rotations occurring more than 50 miles or more than one hour driving distance from where didactics are held **OR** the gas stipend that may be available should a student decide to drive to/from the rotation site that is 50 miles one way or one hour driving distance from didactics (see *SharePoint/Clinical Rotation Resources/Site Pages/Reimbursement Requests* for more information). Receipts or online booking confirmations are REQUIRED for airfare, lodging/housing, car rental, parking costs, taxi/subway, etc., **and MUST show your name and the date(s)**. Screenshots without this information will not be accepted. There is no reimbursement for meals.

DO NOT INCLUDE ANY EXPENSES FOR RESIDENCY INTERVIEWS. For assistance with those expenses, look into the [Sallie Mae® Medical Residency and Relocation Loan](#), designed to meet OMS4 R&R costs.

Course #	Core Rotation	Location	# of Weeks	Start Date	End Date	Related Expenses							
						Air Fare Cost	Mileage to Rotation Site*			Car Rental Cost	Extra Housing Cost	Other (itemize)	
							Miles driven one way	# days per week	# of weeks				

* If you wish to have your mileage considered, you must provide a printout of an online map showing the starting address and the ending address, along with miles driven. Keep in mind that according to *SharePoint Reimbursement Requests*, a "gas stipend may be available should a student decide to drive to/from the rotation site that is 50 miles one way or one hour driving distance from didactics." PNWU reimbursement is a MUCH better option for you to investigate rather than taking out additional loan.
